On May 27, 2011, Criminal Defense Lawyer Eric J. Davis of Davis & Associates, PLLC successfully defended a Federal Medicare Fraud case. Our client, an orthopedic surgeon, was accused in a \$45 million dollar conspiracy where the government alleged that our client conspired with others to defraud Medicare by claiming that physical therapy was performed when, in fact, it was not performed. Our client headed to trial after being indicted for one count of Conspiracy to Commit Medicare Fraud and twelve separate counts of Medicare Fraud. After a three week trial in the United States District Court for the Southern District of Texas - Houston Division, our client was found **NOT GUILTY** of all charges.
